evoframe SINGLE-USE SOFT TISSUE RETRACTION SYSTEM

Maximum flexibility for more safety

evoFrame is a sterile, single-use soft tissue retraction system that can be individual adapted to the specific anatomical conditions. Designed for comfortable use, evoFrame is easily adjusted and securely fixed.

Variety of hooks

To ensure ideal surgery conditions, we offer a selection of differently shaped hooks. Also, the steel hooks can be combined and used just as required.

Ideally adjustable

The high stability of the frame as well as the integrated self-retaining function allow our soft tissue retraction system an optimally adaption to the anatomical shape.

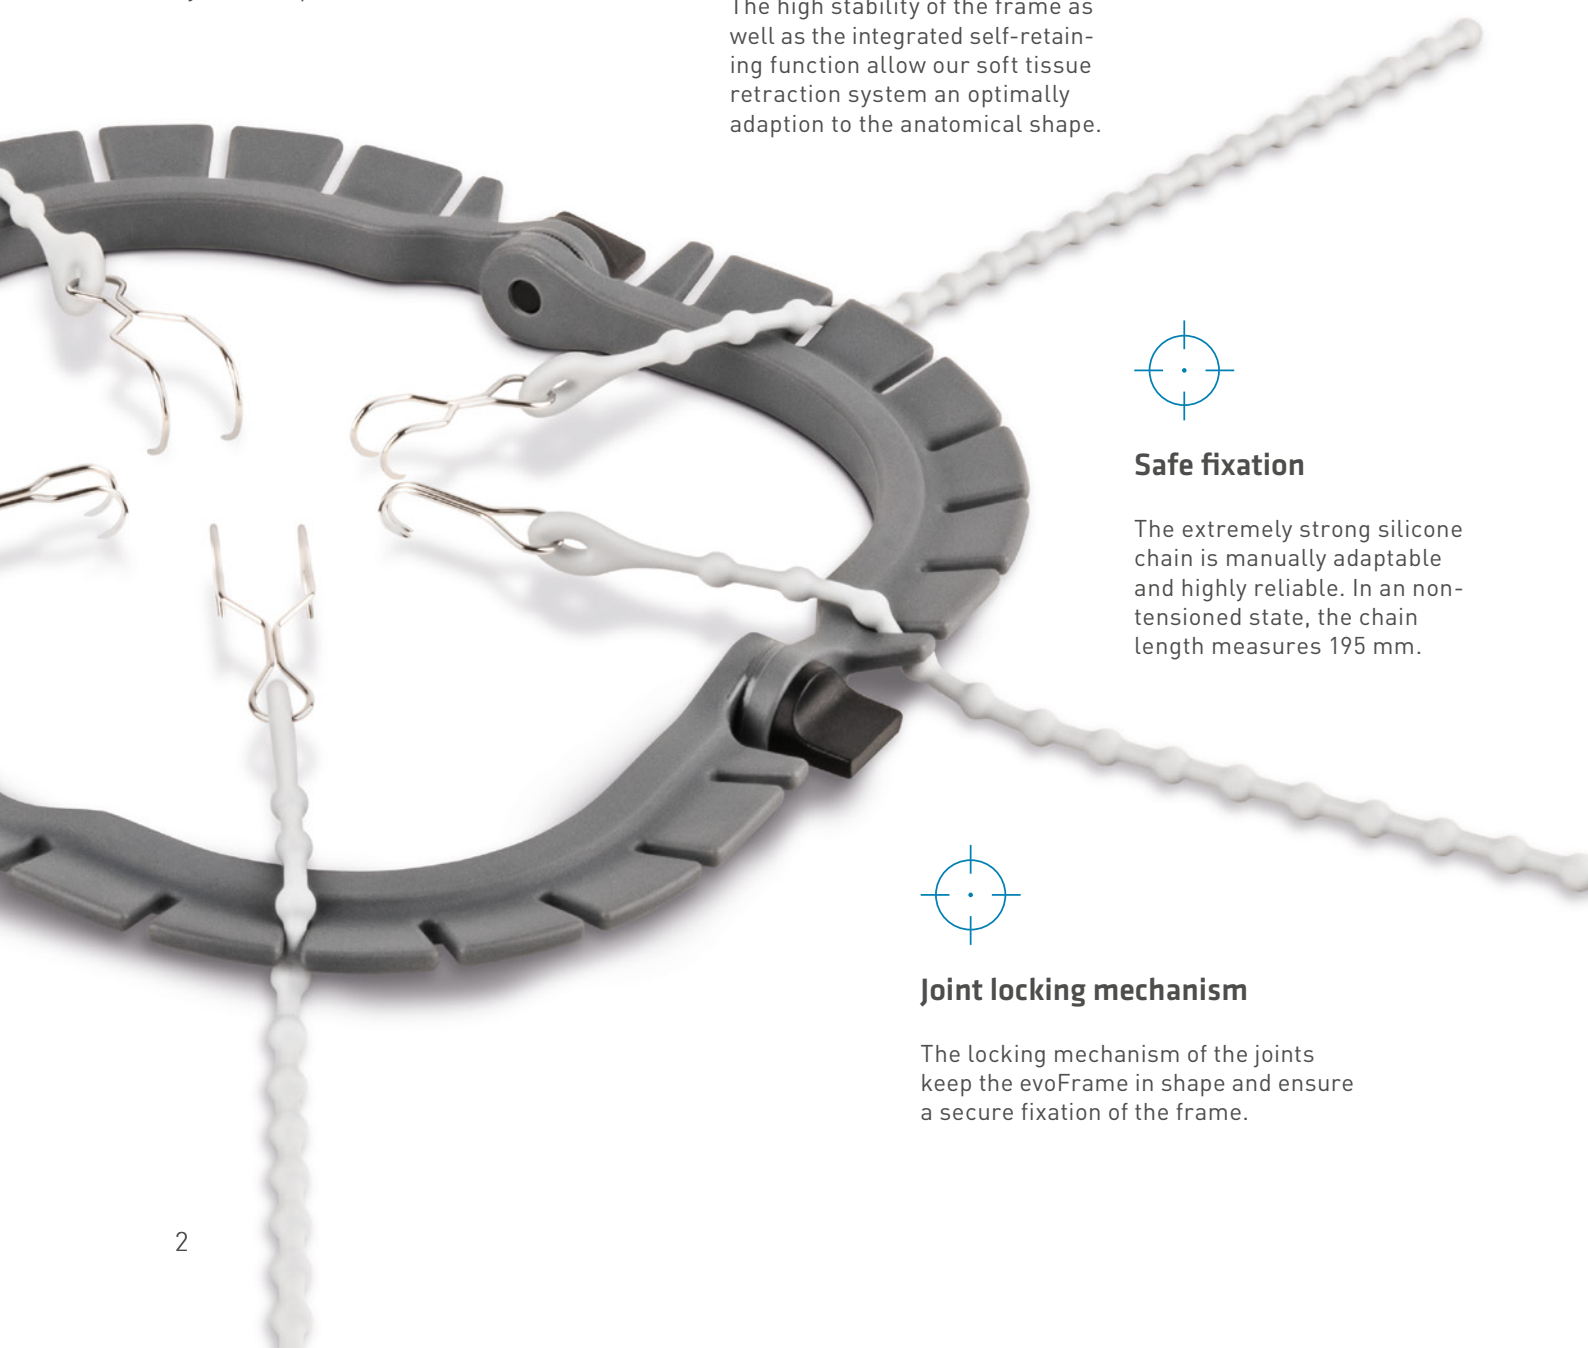

Safe fixation

The extremely strong silicone chain is manually adaptable and highly reliable. In a non-tensioned state, the chain length measures 195 mm.

Joint locking mechanism

The locking mechanism of the joints keep the evoFrame in shape and ensure a secure fixation of the frame.

evoFrame

Area of applications

Neurosurgery
General Surgery
Spine Surgery
Hand Surgery
Foot Surgery
Plastic Surgery
Gynaecology
Rectal Surgery
Urology
ENT

Designed with you in mind

We develop, produce, and distribute neurosurgical instruments, implants, equipment, and system solutions. But more than that, we believe our role is to understand and respect the challenges surgeons face every day in the operating theatre – because only then we can create future-oriented products and solutions that ensure greater efficiency and working comfort.

We talk with surgeons and find out how they work. We ask them what inspires them and what they need to do the best job every time they step into the operating theatre. The result is a range of uniquely innovative products that help surgeons achieve optimal results.

evoFrame Set and Frame

Sterile single-use product

Item no	48-000001	48-000002
Product description	evoFrame Sterile Set	evoFrame Retraction Frame Only
Inner frame Ø	150 mm	150 mm
Packaging unit	1 x retraction frame 2 x single hook, sharp, W=2 mm 2 x double hook, sharp, W=6 mm 2 x double hook, sharp, W=10 mm 6 x silicone chain, L=196 mm	1 x retraction frame only

evoFrame Blunt Hooks

Sterile single-use product

Item no.	48-000014	48-000015	48-000016
Product description	evoFrame single hook	evoFrame double hook	evoFrame double hook
Length Width	L = 23 mm W = 2 mm	L = 23 mm W = 6 mm	L = 23 mm W = 10 mm
Packaging unit	10 (5 x 2 hooks)	10 (5 x 2 hooks)	10 (5 x 2 hooks)

Each hook is supplied with a 196 mm long silicone chain.

evoFrame Sharp Hooks

Sterile single-use product

Item no.	48-000018	48-000019	48-000020	48-000021
Product description	evoFrame single hook	evoFrame double hook	evoFrame double hook	evoFrame Fish hook
Length Width	L = 23 mm W = 2 mm	L = 23 mm W = 6 mm	L = 23 mm W = 10 mm	L = 34 mm W = 13 mm
Packaging unit	10 (5 x 2 hooks)	10 (5 x 2 hooks)	10 (5 x 2 hooks)	10 (5 x 2 hooks)

Each hook is supplied with a 196 mm long silicone chain.

For highly demanding applications: additive-manufactured hooks

In addition to the evoFrame product qualities, the additive-manufactured hooks offer additional advantages that further enhance flexibility in certain aspects of application.

MRT-compatible

The hooks are biocompatible and suitable for MRI environments. This streamlines the X-ray process and saves valuable time.

Reduced risk of injury

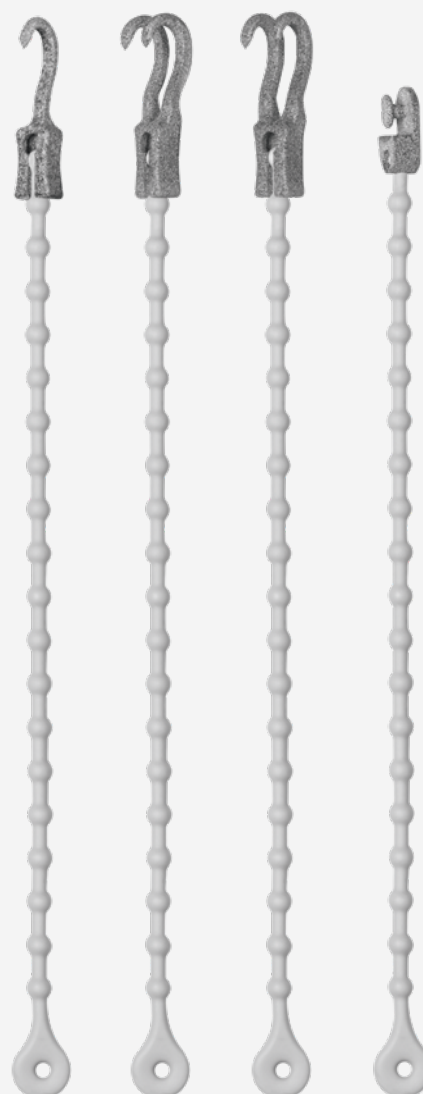

The atraumatic design of the hooks minimizes the risk of injury and ensures gentle handling.

Flexible and modular, tailored to your needs

Thanks to the innovative connecting piece, the silicone chain can be expanded as required, offering versatile application possibilities.

Cost-effective

Utilizing 3D manufacturing processes, the hooks are produced economically and efficiently, enhancing availability for delivery.

evoFrame Sharp Hooks

Sterile single-use product

Item no.	48-000022	48-000023	48-000024	48-000025
Product description	evoFrame radiolucent single hook	evoFrame radiolucent double hook	evoFrame radiolucent double hook	evoFrame radiolucent connection chain
Length Width	L = 23 mm W = 3 mm	L = 23 mm W = 6 mm	L = 23 mm W = 7,5 mm	-
Packaging unit	10 (5 x 2 hooks)	10 (5 x 2 hooks)	10 (5 x 2 hooks)	10 (10 x 1 piece)

Each hook is supplied with a 196 mm long silicone chain.
